Message from Chairman

Message from Chairman

It gives me great pleasure to present and put forward our achievements and untiring efforts to develop and strengthen our management of NOORS Engineering Co. to be ahead among other contracting companies in Qatar.

NOORS has been taking a leading role in providing general contracting services with uncompromised commitment to Quality, Health, Safety and Environment. We do this through the combination of an open relationship with our employees based on mutual trust, transparency, accountability and discipline. The Company has implemented a business governance system that conforms to the best local and international standard practices. In preparation to meet the Company vision and growing market demands for diverse construction, NOORS has heavily invested in employing a highly qualified Senior Management Teams and staffs to meet international standards and purchased state-of-the-art equipment to participate in upcoming challenging large-scale projects.

My thanks and appreciation goes to all managers and staffs across all our business for their professional and personal efforts and contributions to the continued achievements of the Company.

In all our efforts, we will strive to build upon our past achievements to improve our sustainability performance, commitment, and capabilities in the Construction Industry with integrity. I would also like to take this opportunity to thank our NOORS Team for their contribution to our ongoing success.

Eng. Imad Hamade
Chairman
NOORS Engineering Co.

Company Introduction

Company Introduction

Noors Engineering W.L.L was established in 1998 primarily as a general construction company. Presently, we are among the leading construction firm and a well-recognized Engineering, Procurement, Installation and Commissioning (EPIC) company in State of Qatar. We pride ourselves on being one of the most dependable multi-disciplinary firms in today's one of the fastest growing economy of the world.

Noors Engineering Co. is certified "Grade B" construction company since May 2009 as awarded by Ministry of Finance (MOF) of State of Qatar. We believe that in order to maintain and preserve the honorable certification of the MOF, we need to assure compliance to all requirements of tendering procedures and efficiently conform to the standards of rules that govern the bidding process as recognized by the Ministry.

We are certified compliant to **ISO 9001:2008**, Quality Management System requirements, **OHSAS 18001:2007**, Occupational Health and Safety requirements and **ISO 14001:2004**, Environmental Management Systems requirements as conferred by Vision International. The certifications are testimonies of our commitment to excellence and our assurance to provide our clients and stakeholders with world-class services and remarkable business experience.

Noors Engineering has a selection of highly-qualified and well-experienced civil, mechanical and environmental engineers, technical staffs, support personnel and skilled laborers. We believe that our talented and skilled human resources are the most important asset in delivering professional and timely accomplishment of our projects. Hence, we ensure that our human resources are well provided with the reasonable benefits, productive and conducive working environment and objective and consistent application of policies and procedures.

In our aspiration to maintain and continuously improve the quality of our services, we offer regular training programs and continuing education courses for all employees so that they can acquire and apply additional knowledge, skills and competencies essential to the performance of their job responsibilities. We continuously provide in-depth seminars, workshops and review trainings programs to all our staff to equip them with the latest developments of the business and bolster improvement of necessary skills and capabilities.

Our construction practices are inspired by the principles of Green Building, wherein our aim is to reduce the overall impact of the built environment on human health and natural environment. In line with this principle, we ensure that our services will be done by efficient use of energy, water and other available natural resources, by protection of occupant's health and well-being and by development of employee's productivity and finally, by reduction of waste, pollution and environmental degradation.

We continuously explore and search for the finest materials and equipment for our projects, not to mention our eagerness to constantly research for the latest and most advance trends of the industry. Moreover, our close relationships with local and international suppliers make it possible for us to procure wide range of materials and services for all construction and maintenance needs.

Through the years, we have built our reputation as one of most dependable multi-discipline firm in Qatar. We have completed various projects for civil, civil-mechanical, building construction, concrete repairs and renovation, marine works, solar power and telecommunications. We continue to improve our quality standards in an effort to meet the growing and changing needs of our clients and to be always on the league of the best and leading construction companies in Qatar.

Parking Management and Guidance System

Noors Engineering Co. offers wide array of services for your contracting requirements through its professional and skilled manpower. For more than a decade of our business operations, we were able to gain recognition from our distinguished clients and stakeholders. Our goal of delivering the best specialized solutions to all Clients is unparalleled in all projects that we handled.

Customers' satisfaction is a primary concern in all our services, hence, we always ensure that all our Clients and stakeholders' inquiries are being responded timely and professionally. We maintain our customers as our top priority and the overall quality of our services is of highest importance to us. Moreover, our talented and skilled manpower guarantees that we can provide you with the most practical, innovative and latest state-of-the-art service which include:

- Building Construction
- Civil Works

IV. Auditor:

Ibrahim Abbasi & Co.

Our mission is to become one of the most admired company in the coming years for all different big projects in Qatar based on integrity performance, value and client satisfaction and quality services delivered by the most qualified people.

NOORS Engineering recognizes the quality is an integral part of business performance and we are committed to achieving continual and sustained improvement through the setting and publishing of objectives and target whilst complying with legal and regulatory requirements as a minimum.

To realize these goals our focus remains in managing the following key social, ethical and environmental issues in a fair and open manner through a programme of continuous improvement.

Our Objective

Our objective is to provide Construction Management & Execution experience and resources that will enable NOORS to focus strategically on delivering value efficiently and effectively, and bring control and improved commercial performance across all the projects in the portfolio.

NOORS departments are responsible for developing overall strategy, policies and guidelines to enable NOORS and its businesses to achieve the necessary Business targets.

It is also responsible for reviewing the entities / departments performance against the targets and compliance against the guidelines.

In most situations NOORS Departments will play facilitation/advisory role and will not get involved in developing content at entity level.

Departments will be responsible achieving the overall (Business Plan) targets and for identifying necessary initiatives to meet these targets as per the guidelines developed by NOORS.

However, NOORS will selectively initiate interventions (approaches) in the form of NOORS initiatives from time to time based on gaps identified during performance reviews or due to reasons of better cooperation for NOORS. Some of the NOORS initiatives already underway are as follows:

- Controls Management
- Contract Management
- Quality Management
- HSE Management
- Risk Management
- Service Excellence
- Customer Centricity & Satisfaction
- Financial Performance Management / Budgeting

Our Strategy

Our Strategy is to engender a divers, honest and accountable culture throughout our business and market place. We have identified the following as fundamental to our approach.

NOORS Engineering carefully study the entire aspect of the projects to highest levels of expertise and professionalism, we obtain alliance with international companies to share in major projects in Qatar.

Our construction activities have a direct impact on both the end users and the wider community, NOORS engage with the local community on our projects and make a positive contribution through school and college education initiatives and charity work including donation of material and refurbishment of charity buildings.

And to emphasis our good teamwork, making the alliance currently the largest number of completed project in Qatar including:

- Residential Towers
- Commercial Centers
- Residential Complexes
- Residential Buildings
- Schools
- Office Building
- Factories
